NATIONAL PARK SERVICE

Lake Roosevelt National Recreation
Area 1008 Crest Drive
Coulee Dam, Washington 99116

IN REPLY REFER TO:

10D LARO-VRP
Administrative Order #21-001
August 17, 2021

Closures, restrictions and public use limits:

Restrictions and Public Use Limits: Under the authority provided to the Superintendent in 36 CFR 1.5(a)(2) the following activities are restricted in Lake Roosevelt National Recreation Area, effective immediately, until further notice:

Regardless of vaccination status or local community transmission levels, all individuals over the age of two must wear masks, except when actively eating or drinking, in all common areas and shared workspaces in federally owned buildings administered by the National Park Service and in office space leased by the National Park Service.

'Federally owned buildings administered by the National Park Service' include, but are not limited to, visitor centers, administrative offices, maintenance facilities, and shared government quarters; buildings assigned to concessioners or other park partners; and buildings leased for commercial purposes to individuals or entities other than the National Park Service.

All individuals over the age of two, regardless of vaccination status or local community transmission levels, must wear masks in the following outdoor areas when others are present, except when actively eating or drinking, where the superintendent has determined that physical distancing (staying at least six feet apart) cannot reasonably be maintained:

1. All common areas and shared workspaces in buildings owned, rented or leased by the National Park Service, including, but not limited to, park visitor centers, administrative offices, lodges, gift shops and restaurants.
2. The following outdoor areas, when others are present, where the superintendent has determined that physical distancing (staying at least six feet apart) cannot reasonably be maintained:
 - outdoor areas adjacent to visitor centers
 - parking lots and common areas in campgrounds
 - crowded trails, viewpoints, and other areas of interest
 - covered structures that attract crowds such as memorials and open-air pavilions

Masks must cover the nose and mouth and fit snugly around the nose and chin with no large gaps around the sides of the face. Masks not designed to be protective, masks with ventilation valves, and face shields do not meet the requirement.

Regardless of vaccination status, all individuals must comply with all orders regarding masks issued by the Centers for Disease Control and Prevention (CDC).

CDC prevention measures continue to apply to all travelers on public transit, regardless of vaccination status. Masks remain required on all forms of public transit that operate within parks, including busses, trains, and boats/ferries, and in transportation hubs.

Approval:  ACTING FOR
Superintendent
